The image shows a black shipping scale with a digital display showing '0.00'. The scale has a textured black top surface and a white panel with a blue display and two buttons labeled 'MODE' and 'TARE'. A black cord is visible on the left side. The background is a light gray with a white circular graphic element.

## DESCRIPTION

The Spartan Series Shipping Scale incorporates portability, affordability and accuracy and can be used in a wide variety of applications. The indicator is remote from the scale platform, connected by an expandable cord to weigh items larger than the scale platter, utilizing a mounting bracket to easily connect the indicator to a suitable wall, shelf or bench top.

Being lightweight and powered by 4x AA batteries (or the included Power Adaptor), these scales can easily be taken from site to site or relocated around the business without any hassles.

## CAPACITIES

- 75kg x 50g

# FEATURES INCLUDE

- Equipped with a high precision strain gauge sensor.
- Large LCD and excellent load cell
- Auto zero resetting/power off
- Over-load/Low battery indicator
- Large square aluminium weighting pan
